How families fared, July–September 2026

County totals only. Anything under 11 families is hidden.

DATA AS OF	Sep 2026
PERIOD	July–September 2026, the latest complete quarter
COUNTIES	All counties, county totals only

Four pictures tell the quarter: whether families improved, how long they waited, where the therapy dollars went and where need is greatest in the counties we serve.

Wait for a first session

No court-ordered case reached a first session this quarter

FAS records · Jul–Sep 2026 (Q3) · n = 0 · as of Jun 2026

Finished therapy

87%

33 of 38 who closed

↑ 21 points higher than April–June 2026

FAS records · Jul–Sep 2026 (Q3) · n = 38 · as of Sep 2026

Cost per completed course

$487

Average across 33 completed courses

↑ $30 higher than April–June 2026

FAS records · Jul–Sep 2026 (Q3) · n = 33 · as of Sep 2026

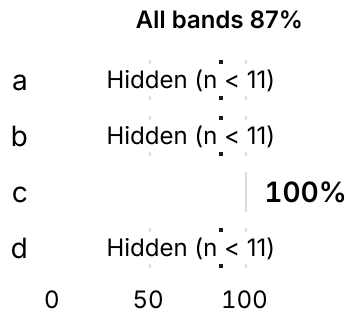

1 · DID FAMILIES IMPROVE?

Across all income bands, 87% of closed cases finished therapy (33 of 38); bands with fewer than 11 cases are hidden.

Fewer than 11 families had PHQ-9 follow-up scores, so that change is hidden. On the GAD-7, scores changed by +0.7 on average and 23% of families improved (lower is better).

WHO FINISHES THERAPY

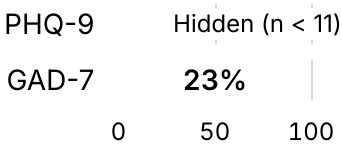

c finished therapy most often (100%). 3 of 4 bands hidden to protect privacy.

FAS records · Jul–Sep 2026 (Q3) · n = 38 · as of Sep 2026

FAMILIES IMPROVING

GAD-7 improved most often (23%). 1 of 2 measures hidden to protect privacy.

FAS records · Jul–Sep 2026 (Q3) · n = 21 · as of Sep 2026

2 · HOW LONG FAMILIES WAITED

No court-ordered case reached a first session this quarter.

Funding decisions took a median of 7 days from application, the same as the quarter before.

49% of therapy dollars went to providers affiliated with FAS, at an average of $102 per hour versus $102 for other providers.

Each completed course of therapy cost $487 on average, $30 higher than the quarter before.

WHERE THERAPY DOLLARS WENT

Other providers received the larger share of therapy dollars (51%), then Affiliated providers (49%).

FAS records · Jul–Sep 2026 (Q3) · n = 38 · as of Sep 2026

Weber County has the highest need of the 5 counties we serve, ranked 17th of 29 statewide.

0 of 5 rank among the 10 highest-need counties in Utah. Relative ranking, not absolute need.

COUNTY	RANK STATEWIDE	NEED SCORE
Weber County	17 of 29	−0.13
Salt Lake County	22 of 29	−0.55
Tooele County	25 of 29	−1.07
Utah County	27 of 29	−1.25
Davis County	28 of 29	−1.86
